DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 4-16, 18-19, and 21-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The preamble of claim 1 recites a game apparatus and the preambles of claims 18-19 and 21-26 recite the method according to claim 1, which tends to wonder if applicant is claiming an apparatus or method, furthermore, it is also unclear where claims 18-19 and 21-26 really depend from claim 1. The examiner suggests that applicant verify that each of the dependent claims is properly dependent upon the correct independent or dependent claim(s).

Claim 4 recites the limitation "the first controller" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "the second controller" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 6 recites the limitation "the third controller" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 7 recites the limitation "the minimum and maximum values are adjustable" in line 1-2. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

3. Claims 4-16, 18-19, and 21-26 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

4. Claims 1, 2, 3, 17, 20, and 27 are allowed.

5. The following is an examiner's statement of reasons for allowance: The prior art does not disclose nor teach according to claims 1, 2, 3, 17, 20, and 27, a rotating bin containing game pieces, a moveable claw, a catapult for launching the game piece, a target area, the moveable claw places the game piece on the catapult, and the catapult launches the game piece at the target in combination with the rest of the claimed limitations. The prior cited only discloses game prizes/objects, a moveable claw and a chute. The prior fails to disclose a rotating bin, a catapult, a target area and the moveable claw places the game piece on the catapult, and the catapult launches the game piece at the target in combination with the rest of the claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
